# 2 A unique experience

---

Argentina, the world champions of 1978 and 1986, is the country that gave the world both the best active player (Lionel Messi) and the best player of all time (Diego Maradona). Now, professional trainers and coaches take you under their wing and teach you based on the training methods that made players such as Higuaín, Di María, Dybala and Agüero great.

This camp is different from the other camps: you will train with the youth teams of a 1st division professional club! It is a unique experience that allows the opportunity to train daily and live with some of the players that will eventually become the future professional stars of tomorrow.

Aside from that, you will visit the stadiums and museums of River Plate and Boca Juniors, the two most prestigious clubs in Argentina, and you will attend a professional soccer game.

Those with the aspiration to go pro will also have the opportunity to show off their skill in front of professional Argentine football clubs.
